

# BrightHealth™

## Managed LED lighting service for healthcare

Brightcore provides turn-key design, installation, and maintenance of new LED lighting in your facility for enhanced appearance and improved safety and care. You enjoy lower electric bills, elimination of lighting maintenance, and upgraded facility performance with no capital investment.

Save

Immediate reduction in energy costs with zero capital investment

Improve

Smart controls, color options and antimicrobial lighting available for improved patient care

Maintain

Our no-fee comprehensive service agreement eliminates costly maintenance

## Why Choose BrightHealth™

Our team is dedicated to designing a system that increases patient comfort and safety while keeping energy and maintenance costs down.
